HEAD & NECK PILLOW

The ultimate accessory for those who need added articulation or support while reclining. The pillow is filled with high density, premium blown fiber that provides the right amount of support along with incredible comfort.

An ergonomic shape was designed for muscle relief and can be used for either the head or neck. The strap features a weighted end so that it balances the pillow to keep its positioning. It's constructed using an anti-slip material along the strap to ensure it always stays in place.
